New Product Announcements, Items of timely interest, direct communications

ANNUAL HOLIDAY SHUT-DOWN:

We shut down manufacturing & restoration services starting the week before Thanksgiving thru New Years, but will ship parts that are 'on the shelf'.

This shutdown is because:

- Holiday events & shopping take up so much time that we just can not make predictable turn-around promises.
- We have found that there are very few orders during this period.

However, if you really have an emergency, call us, we'll help if it is possible.
